

DRESTER QUICKRINSE TT

Drester QuickRinse TT

Pneumatic rinsing device for disposable cup systems. With a gun cleaner close to where you spray, cleaning is taken care of quickly and easily, which saves you a lot of time! With a Drester QuickRinse, you clean the gun's paint channel in less than 10 seconds! The TT cleans both water and solvent.

MANY BENEFITS OF THE QUICKRINSE

- For all disposable cup systems
- For quick and safe colour change
- For water or solvent
- High Pressure/flow cleaning of water by pump
- For use anywhere, even inside the booth (water only)
